

MICROBIOLOGICAL TESTING OF FOOD

FOOD CONSULTING SERVICES have been around since 1977, and are servicing some of South Africa's most blue chip food manufacturers and retailers.

To find out how we can help you with accurate microbiological test results, reduce your QC costs, improve your service and reduce your report turn around times, please contact us.

We look forward to being your microbiology partners.

Do you need microbiological tests for your food, swabs and water?

Well, you need not look further than FOOD CONSULTING SERVICES. We will tick all the right boxes for you:

- Accurate microbiological test results
- Rapid pathogen tests using VIDAS® technology
- SANAS accredited methods in accordance with ISO/IEC 17025:2005
- Qualified microbiologists testing your samples
- Outstanding turn-around times on reporting
- Excellent pricing structures to reduce your QC costs
- Over 35 years experience testing food
- Dedicated management who personally look after your needs
